Access information on the districts at www.alaskaswcds.org or call AACD at 373-7923 or AACD Executive Director Al Poindexter at 235-8177, x4.

Your local Soil and Water Conservation District works with interested landowners to promote good stewardship of land and water resources. SWCDs were formed in Alaska beginning in the 1940s to assist federal officials to help local landowners voluntarily apply conservation practices. A wide variety of assistance is available through your local SWCD. Contact your local District for specific program information.
